## Clinical Laboratory Test Update

### Pentobarbital

Effective September 18, 2017, the University of Colorado Hospital Clinical Laboratory Pentobarbital testing will not be available due to instrumentation problems. The duration is expected to be 2 weeks.

It is recommended that our clients send testing to an alternative laboratory to avoid unnecessary further delays in testing. Once testing resumes, an updated lab notice will be sent.

Please call Mary Ellen Boyle, at 720-848-7067 if you have any questions or visit our website at <https://www.uchealth.org/professionals/uch-clinical-laboratory/> for additional information.
