Clinical Laboratory Test Update

Urine Collection Tip Sheet

Effective 1/28/2020, labels for each tube in the BD urine collection kits will print at the point of collection. It is recommended that all tubes included in the collection kits be labeled and submitted to the Laboratory, to facilitate possible add-ons. Affix the labels to the appropriate tubes, e.g. "Speckled", "Clear", "Gray".

[Click here](#) for a new tip sheet on collection of urine using the BD urine specimen kits. Following these instructions will help to mitigate ordering, collection, and transport issues. This tip sheet is also available in the UCH Lab Test Catalog sidebar.
