

## Add Patient Contacts

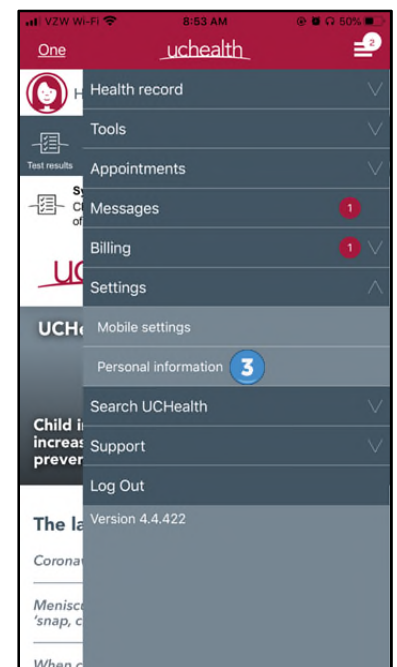

If you want friends or family to be able to visit you while you are in the hospital, you must add each person to your patient contacts in My Health Connection.

1. Log into the UCHealth application on your mobile device (smart phone or iPad).
2. Tap the 3 horizontal lines in the upper right corner.

5. For each relationship you add, you must enter the first name and their last name. Other fields are helpful, but not mandatory. When you finish entering information, tap **Save Changes**.

Note: Once a contact has been added, the patient care team must approve the contact as a visitor before they can visit.
