I. Overview

House Bill 19-1320 requires non-profit tax-exempt general hospitals, Denver Health Medical Center, and University of Colorado Hospital to complete a community health needs assessment every three years and an annual community benefit implementation plan every year¹. Each reporting hospital is required to convene a public meeting at least once per year to seek feedback on the hospital's community benefit activities and implementation plans. These hospitals are required to submit a report to the Department of Health Care Policy & Financing (the Department) that includes but not limited to the following:

- Information on the public meeting held
- The most recent Community Health Needs Assessment
- The most recent Community Benefit Implementation Plan (This requirement will be waived for the report due September 1, 2020)
- The most recent submitted IRS form 990 including Schedule H
- A description of investments included in Schedule H
- Expenses included on form 990

More information can be found on the [Hospital Community Benefit Accountability webpage](#). Please direct any questions to hcpf_hospitalcommunity@state.co.us.

¹ Long Term Care and Critical Access hospitals are not required to report.

There were very few questions and comments from the meeting participants. The information was shared with UCHealth University of Colorado Hospital leadership and will be considered during the development of the FY 2021 implementation strategy.

IV. Investment and Expenses Reporting

Provide the following information on the expenses included on submitted form 990

Total expenses included on Line 18 of Section 1 of submitted form 990:

\$1,928,106,663.00

Revenue less expenses included on Line 19 of Section 1 of submitted form 990:

\$432,886,691.00

Reporting Hospitals not required to complete form 990 shall provide the above information as described on Lines 18 and 19 of form 990.

Provide a description of each investment made that was included in Parts I, II, and III of Schedule H that addressed a community Identified Health Need and include the following:

- Cost of the investment. For this reporting purpose, “investment” means the hospital’s expense net of offsetting revenue for financial assistance and means-tested government programs, other community benefits such as community health improvement services and community benefit operations, and/or community building activities. See the IRS instructions for Parts I, II, and III of Schedule H of Form 990 at www.irs.gov/pub/irs-pdf/i990sh.pdf.
- For each investment that addressed a Community Identified Health Need identify the following categories:
 - ✓ Free or Discounted Health Care Services
 - ✓ Programs that Address Health Behaviors or Risk
 - ✓ Programs that Address the Social Determinants of Health

There is a crosswalk available on the [Hospital Community Benefit Accountability webpage](#) under the resources section.

- For each investment that addressed a Community Identified Health Need describe available evidence that shows how the investment improves Community health outcomes

Separate each investment (expense) as a numbered list

1. A summary of the investments by category is provided below. Additional detail on the investments that comprise each of these categories can be found in the attached excel file. It is important to note that many investments could be categorized as either addressing health behaviors and risk or addressing social determinants of health. We have assigned a primary categorization due to the difficulty in attributing exact dollars for one program amongst the categories.
2. It is also important to note that this summary of investments requested for the Hospital Community Benefit Accountability report expressly excludes certain community benefit investments, allowed on Schedule H, that are significant for hospitals and to the community. These include uncompensated care costs associated with Colorado Indigent Care Program, Medicaid, CHP and Medicare patients. The inclusion of these additional community benefit investments would increase the community benefit investment for UCHHealth University of Colorado Hospital by \$157,693,706.
3. The Schedule H, which we are also providing to HCPF, also excludes investments associated with Managed Medicare and Tricare patients, as well costs associated with self-pay patients who do not apply for or qualify for financial assistance, among others. The inclusion of these additional community benefit investments would increase the community benefit investment for UCHHealth University of Colorado Hospital by \$65,745,993.
4. Investments in programs that address health behaviors or risk:
\$149,618,561
5. Investments in free or discounted health care services: \$1,866,764
6. Investments in programs that address social determinants of health:
\$127,142
