Clinical Laboratory Test Update

Discontinued Test – Phencyclidine, Urine (PCP)

Effective this Fall, 2022, the University of Colorado Hospital Clinical Laboratory will no longer perform in-house screening for PCP in urine as a stand-alone test or as part of urine drug screening panels. When ordering urine drug screening for a patient with possible PCP exposure, the testing will be couriered to a reference laboratory for testing. Additional ordering information will be provided as the discontinuation date is selected.

Please call Gregory Bocsi, DO at 720-848-7050 if you have any questions or visit our test catalog at <https://www.testmenu.com/universityhospital> for additional information.
