Clinical Laboratory Test Update

Immunophenotyping - Leukemia and Lymphoma order update: University of Colorado Hospital Clinical Laboratory

Effective September 1, 2026, the UCH Clinical Laboratory Flow Cytometry department will go-live with a new Epic test ordering code for Immunophenotyping-Leukemia and Lymphoma testing.

Previous Epic Order Code	New Epic Order Code
LAB3358	LAB8697

Results will continue to populate under Chart Review/Path tab. In addition, results will now populate under Results Review under Pathology:

The screenshot displays the Epic Results Review interface. The top navigation bar includes tabs for Specimen Inquiry, Chart Review, Encounter, Summary, SnapShot, Review Flowsheets, Results Review (selected), Allergies, and Communications. The Results Review section is active, showing a search bar, a filter set to 'Since Time Mark', and a list of results. The selected result is 'Final Diagnosis-Flow Cytometry Immunophenotyping', which is highlighted in blue. The result details show a date of 7/31/26 at 16:07, collected from Bone Marrow. The test name is 'Final Diagnosis-Flow Cytometry Immunophenotyping'. The result text indicates a positive finding for a phenotypically abnormal population, with the resulting lab identified as ANSCHUTZ MEDICAL CAMPUS LAB, AURORA, CO. Related results are also listed.

Please call Dr. C. Kayla Pang at 303-724-2459 if you have any questions or visit our website at <https://www.uchealth.org/professionals/uch-clinical-laboratory/> for additional information.
