

UCHealth MRI School – MRI 2027 Traditional/Accelerated Program

New Career Opportunities For UCH Technologists!

Did you know that UCHealth has its own MRI school? These programs are certified by the Colorado Division of Private Occupational Schools and award college semester credits. These credits are transferable to most college's and can count toward your bachelor's degree at most institutions (in healthcare).

UCHealth School of Radiologic Technology – MRI Course – 9 - 18 semester credits

UCHealth School of Radiologic Technology offers a 7-month (Accelerated) and 10-month (Traditional) MRI program with both class and clinical hours.

Tuition costs are \$3,000 per semester for a total of **\$6,000** but qualifies for tuition reimbursement with GUILD

- **First semester classes** are *tentatively* scheduled for **January 26th 2027 – May 7th 2027**, Tuesday and Thursday from 01:00 - 2:30 PM online using Microsoft Teams or in person at the MAC building. Colorado Springs students will have *MRI lab on Thursday evenings* from 6:15 – 8:15 pm at Eastview Medical Center.
- **Second semester classes** are tentatively scheduled for **May 18th 2027 – August 29th 2027**, Tuesday and Thursday from 1:00-02:30 PM online using Microsoft Teams or at the MAC building.

Clinical Requirements for MRI

Students outside of Colorado Springs must gain **approval** from the desired clinical MRI location before the start of the program. In the past, we have worked with students in Aurora, South Metro, Aurora, Longmont, Fort Collins, Pueblo and Greeley locations. Please reach out to the radiology school to help coordinate a clinical site within UCH.

Traditional MRI students will be allowed to coordinate their own clinical schedule based on the availability of each MRI scanner.

On the job (accelerated) MRI students will be in a paid position and assigned a clinical schedule according the need of the MRI department. Please reach out to the school for more details.

Prerequisites:

Current UCH employee and **registered technologist with the ARRT** in any of the following: Radiography, Nuclear Medicine Technology, Radiation Therapy, or Sonography.

Please submit applications **before November 20th 2027**. Interviews will be scheduled the **first week in December**.
